25/9/26

We had the first meeting with our newly elected School Council. Each councillor took turns to introduced themselves and we discussed how they had been chosen which was through the democratic process of voting in each of their classes. We talked about some of the responsibilities of the School Council, as well as made badges and had our photos taken. Mrs Grey showed the councillors where to find information about the School Council on the noticeboard in the corridor. There was so much excitement about their new roles of responsibility.

9/10/26

For our meeting today, we came equipped with litter pickers, plastic gloves and a plastic bag in order to go outside to carry out a litter pick all around our school grounds. We went onto the KS1 Playground and underneath the canopies. The children managed to fill half a bag with litter but were pleased to note that there wasn't too much litter on the school grounds which is very positive as we all like to learn in a clean environment.

22/10/26

The theme for our meeting this afternoon was to discuss our suggestions about what we thought the School Council could do during their first half term of this academic year..

The following are some of the councillors ideas:

- Look after our world and the school environment
- Save the world from litter
- Tell others to follow the Golden Rules and set a good example ourselves
- Try our best in everything we do

We also discussed what we might be able to change about school.
Mrs Grey is going to email Miss Redman to ask if there are other issues she would like the school councillors to address.
