

6/2/26

We had the first meeting with our newly elected School Council. We introduced ourselves and discussed how we had been chosen which was through the democratic process of voting in each of our classes. We talked about some of the responsibilities of the School Council, as well as made badges and had our photos taken. Mrs Grey showed the councillors where to find information about the School Council on the noticeboard in the corridor.

20/3/26

We met with Miss Redman and Mr Furness, a School Governor, to talk about the concept of bullying. We impressed them with our understanding and shared views that bullying is not ok. Miss Redman presented her ideas around this subject and encouraged the children to contribute theirs. A task was set for each child to design a poster to accompany our school Anti-bullying Policy.

17/4/26

We collected up the posters that the children had made to give anti-bullying reminders and then had time in our meeting to edit them or start one, if we hadn't already created one. For those who finished we had a quick litter pick outside the Year 1 canopies. We were pleased that there was not too much rubbish.

1/5/26

We came equipped with litter pickers, plastic gloves and a plastic bag in order to go outside to carry out a more litter picking all around the school grounds. We went onto the KS1 playground where we were also pleased to find very little litter! Most of it was around the bins and consisted of scraps of paper and fruit peelings. Some litter had also blown into the hedges that border onto School Lane. The children managed to fill half a big bag with litter.

15/5/26

For this meeting Mrs Grey showed the School Councillors how to put the library books away. We talked about the spines of the books and looked at the alphabetical signs for each set of books. Once all of the returned books were neatly tidied away, the councillors chose which books they would like to display on each of the top shelves to encourage other pupils to read these.

3/6/26

As our Courtyard Play Area is now finished, we went into this area to assess the different pieces of equipment. It was raining unfortunately so we weren't able to test it out this time, but all the children said that they had been on the equipment previously with their classes. They gave their opinions about the different play equipment:

- the sheltered area is a good drawing and sitting area especially as it shelters you from the rain
- the pirate ship is great for going under and over
- the logs are good for practising balancing
- the flower beds are great for showing nature, with the growing, the flowers and the strawberries
- the slope and tunnel are enjoyed for sliding under
- the stage is a good area for singing, dancing and having fun.

The children gave it all 10/10!

17/6/26

We spent our time together as school inspectors of the cloakrooms! We walked around the school with our clipboards, assessing the cloakroom outside each classroom. It was interesting to note that most of the children are in good habits of hanging up their coats and P.E. bags on their pegs. There wasn't too much on the floor. Well done everyone!

1/7/26

We came equipped with litter pickers, plastic gloves and a plastic bag in order to go outside to carry out another litter pick all around the school grounds. We went onto the KS1 Playground and underneath the canopies. The children managed to fill half a bag with litter again but were pleased to note that there wasn't too much litter on the school grounds.
