

Your child's reading journey

Year 1

Your child is on their journey to becoming a skilled reader. In Reception, they learned all of the single letter sounds, the consonant digraphs and some vowel digraphs (digraph: two letters, one sound) and trigraphs (three letters, one sound).

In Year 1, children will learn the remaining graphemes in the *Little Wandle Letters and Sounds Revised* programme. These are alternative spellings for the sounds that they already know. The children will become more fluent readers and will read increasingly challenging texts.

All for the love of reading

- Teaching children the skills of reading will increase their will to read.
- Children who love reading, choose to read.
- Reading develops children's vocabulary, understanding of the world and empathy.
- A love of reading is the biggest indicator of future academic success! To develop a love of reading, children must have the skills to read, which is why we teach them using phonics.

What is my child taught in school?

- In Year 1, children are taught a 30-minute phonics lesson every day.
- They will also have an opportunity to apply their phonic knowledge to reading a book (matched to their level), at least three times a week.
- Your child may need daily additional practice to help secure their learning.

What can I do to support my child at home?

- Listen to your child practise reading their phonics book to develop their fluency.
- Read to your child daily – choose books that you can enjoy together. The love of reading books we send home are a great place to start.
- Ask your child's teacher if you need extra help with supporting your child – that's what we're here for!

What if my child comes across a word that they can't read straight away?

- If your child is unsure of a word, ask them to sound it out and then blend.
- Ask them if they can spot any digraphs (two letters, one sound) or trigraphs (three letters, one sound) before decoding the word.
- Never ask your child to guess words using the pictures or initial sounds as clues. If they are really struggling just read the word to them.

My child is reading the books fluently at home, do they need a more challenging book?

- No! We want children to be able to read fluently and not find reading a chore.
- Once they can read fluently, they can focus on adding expression when reading aloud and showing their understanding of the book. Use the prompts on the back page of the books to check your child's understanding.

Phase 5 tricky words: Year 1

Information for parents and carers

'Tricky words' are words that cannot easily be decoded ('sounded out' and read). This is because some of the sounds in the words are spelled in an unusual way. It is important for children to be able to read these words as they are among the most common words in English.

The table shows the tricky words that your child will learn in Phase 5 in Year 1 and explains why each word is tricky. Tricky words taught in Reception that remain tricky in Year 1 are also shown. Children will practise the tricky words in school until they can read them automatically. They will also practise reading the tricky words in the decodable books that they bring home.

Terminology

Phoneme: The smallest unit of sound that can be identified in words. We also use the term 'sound' but your child may use the word 'phoneme'. There are 44 phonemes or sounds in the English language.

Grapheme: A letter or group of letters used to represent a phoneme in writing. The way graphemes are used to represent phonemes in our written language is known as the alphabetic code.

Decode: To break down ('sound out') a written word into sounds then blend the sounds together to read the word.

Digraph: A grapheme made of two letters that represent one sound. An example is the 'sh' in 'shop'. Your child may use the mantra 'two letters, one sound' when they spot a digraph.

Schwa: This is the name for the most common sound in English. It is the unstressed sound that we find in many words and can be spelled in many ways. It makes an 'uh' sound, which varies according to accent. Examples include: thu, better, carrut, balloon.

Split digraph: A vowel digraph that is split by a consonant. Examples include 'a-e' as in 'cake' (**ai** sound); 'e-e' as in 'athlete' (**ee** sound), 'i-e' as in 'time' (**igh** sound), 'o-e' as in 'bone' (**oa** sound) and 'u-e' as in 'tube' (**yoo** sound).

Trigraph: A grapheme made of three letters to represent one sound. An example is the 'igh' in 'sight'. Your child may use the mantra 'three letters, one sound' when they spot a trigraph.

Your child's reading journey

Year 1 Phonics Screening Check

Your child has now learned most of the Year 1 phonics in *Little Wandle Letters and Sounds Revised* and will soon be preparing for the nationally required Phonics Screening Check, which will take place in June.

What is the Phonics Screening Check?

- The Phonics Screening Check is a quick check of your child's decoding skills.
- Your child will be asked to read 40 words – 20 are real words, 20 are known as 'alien words' (made-up words).

Why do the children read 'alien words'?

- Reading alien words checks children's decoding skills and knowledge of graphemes in a fair way – it mirrors what the children have to do when they read a word that they have not read before.
- Your child will not have seen the alien words before. They will have to use their knowledge of letters and sounds to work out how to read them.

How does the check work?

- Your child will be asked to read 40 words independently.
- The check has been designed to not put your child under stress. It will be carried out by a member of staff who knows your child well.
- It should only take a few minutes to complete, but there is no time limit.

Do I need to do anything to further support my child?

- Continue to listen to your child read their phonics books and read to them daily.
- Your child's teacher will let you know if any additional practice is needed.
- Always ask if you need any further support!

All for the love of reading

- Teaching children the skills of reading will increase their will to read. Children who love reading, choose to read.
- Reading develops children's vocabulary, understanding of the world and empathy.
- A love of reading is the biggest indicator of future academic success! To develop a love of reading, children must have the skills to read, which is why we teach them using phonics.
