

School Sports Grant

The Government has allocated extra funding directly to Primary schools specifically for improving physical education (PE) and sport.

Schools can choose how they use the funding, for example to:

- hire specialist PE teachers or qualified sports coaches to work with primary teachers during PE lessons
- support and involve the least active children by running after-school sports clubs and holiday clubs
- provide resources and training courses in PE and sport for teachers
- run sport competitions or increase pupils' participation
- run sports activities with other schools

Accountability

Schools are also held accountable through the Government requirement to publish on their websites, details of how they spend (or will spend) their PE and sport grant. They must also include detail about the impact this funding has on pupils' PE and sport participation and attainment.
