

## Our School Dog... Dexter's News!

### June 2025 - Post No.65

June has been a bit of a scorcher and although I do love to sunbathe, it may have even been a bit too warm for a busy hound such as me! Throughout this month I have kept myself busy but definitely had to pace myself, take shade breaks and keep myself hydrated by drinking plenty of water!

In school I have had so much fun with Class Assemblies (across both schools!) and of course our super exciting Federation Maths Day which was themed by one of my favourite tv programmes, Taskmaster; to be honest, although Mrs Fennell

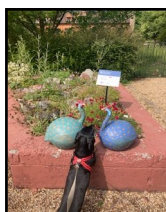

and Mr Farrer thought they were in charge for the day, I think

I'm the only true 'master' at Westfields - I certainly get the most compliments and fan mail! This month I also had a rather wonderful time at the Infants Sports Morning - I got to

sit with some of my favourites in Squirrel Class...Everyone was so amazing in their races, they all really tried their best which is really what is the most important thing! Similarly I attended the Juniors Sports Day (but not for long as it was a little too hot for me!) which was equally fun-filled but I do think the children run even faster and I have to be concentrating to know the results!

Beyond my working week, I have been busy building my life experiences... firstly I had a wonderful time on another 'Sausage Walk' but this time we went to Pottenham

Common which I've only been to once before! I also spent a particularly enjoyable morning wandering around a sculpture exhibition at Ramster Gardens. Miss Redman says I'm a well travelled and cultured pooch, I think she may be right?!

Only one more blog from me for this academic year - where did the time go? I'll definitely be sure to make my last Dexter's News 2024/25 a good one—I wonder what I'll get up to?

Love,

Dexter
