

## Our School Dog... Dexter's News!

### November 2024 - Post No.58

Well November has raced away and here we are at the end already! I have been so busy and even though the weather has been rather soggy and chilly, I have made the most of getting out and about and I hope you have too? It can be a little difficult to make time to get out in the fresh air but it is so much fun to explore (and sniff!) new places and spend time with friends and family.

During November, Miss Redman and I have visited a sculpture park; here you can see me here riding on the back of a dragon! We also visited an arboretum — I know... it is a very funny word but it just means a place with lots of trees and shrubs; of course because of this, I absolutely loved it! Not only were there exciting smells and sounds but all of the trees were so beautiful with their autumnal leaves in shades of red, orange and yellow.

Of course, it is not all playtime... during my working days, this month's highlights have definitely included seeing lots of the children with their learning. Here I am evaluating some model making from Reception children. I also particularly enjoyed watching 4CB's Class Assembly, providing feedback for some

Nativity rehearsals and walking with some of the Year 5 children when the sunshine has been out! And... to finish off the month I really enjoyed singing along with both Westfields' Choirs at the Yateley Christmas Market on Saturday afternoon, they were fab-u-lous!

Miss Redman says December is destined to be very busy, I'm not exactly sure why but I shall look forward to sharing all my news at the end of the month as usual.

Love, Dexter
